

The leading choice for asbestos removal, demolition and remediation services in the UK

Rhodar is a leading company in asbestos removal, demolition and remediation services, with a proven track record for delivering high-end projects throughout the UK.

We've been providing exceptional service since 1976, and have earned our enviable reputation for uncompromising quality along the way.

Supported by over 500 employees at 14 facilities nationwide, our highly trained teams are trusted by major corporations

to offer specialist enabling works solutions covering our three core disciplines either individually or collectively across both public and private sectors.

Our commitment to health and safety underpins everything we do. Our vision is to maintain our market leading position, developing long-term client relationships; our mission is to maintain the highest industry standards of service and performance.

In pursuit of excellence, Rhodar is your trusted partner for all construction enabling works.

Health, safety and quality

When it comes to **health & safety excellence**, we are leaders in our highly legislated industry sectors. From our bespoke **SAFEguard** programme and internal audit team to our site-based initiatives, we deliver exceptional Health & Safety standards in everything we do.

Our **quality** is second to none. We proudly hold a full 3-year HSE asbestos removal licence and with a comprehensive suite of accreditations, insurances and other required industry qualifications in place, we consistently provide an outstanding service across all of our sites.

Technology

Our teams work in conjunction with the very latest systems, streamlined processes and clear procedures. They have the benefit of advanced technology at their disposal, including tablets and 'apps' to assist with training, auditing, project management and KPI monitoring – contributing to the delivery of class leading operational sites.

Rhodar is renowned for its industry-leading Innovations, examples being our cutting-edge asbestos removal and meticulous procedures and our unique approach to brownfield remediation.

Experience and sectors

With expertise across all public and private sectors, **our experience is unrivalled**, we draw on best practice initiatives to continually improve the way we work across all sectors. We're proud to work with an enviable list of key organisations, contractors and buying consortiums that includes:

The sectors we work in include:

- Retail
- Utility
- Education
- Industrial
- Nuclear
- Healthcare
- Transport
- Public
- Commercial
- Defence
- Domestic & Insurance
- Construction

Flexible support

We have a **flexible support infra-structure** to handle all types of work. Operating on projects of various sizes, we have local teams who focus on regional works in addition to our National Accounts team who are dedicated to centrally managing UK-wide clients and projects.

Our dedicated housing division, Homeworks, provides specialist domestic support and asbestos management services for predominantly insurance companies and housing associations.

Trusted partner

We're trusted by our clients, contractor partners and industry colleagues. Acting as Principal Contractor or Contractor, with the appropriate security clearances, training and insurances in place, we deliver projects on time and on budget.

We provide clients with training through seminar roadshows, are regularly called upon to speak at industry events and provide technical and strategic advice to a number of industry bodies.

Our **responsibilities** cover a range of areas, including:

Legislation - We maintain a comprehensive range of licences, memberships and accreditations.

Health & Safety - Complementing our OHSAS18001 (ISO45001) certification we have introduced a series of initiatives to support our H&S performance.

Training - Our workforce undergoes continuous workplace training, tracked and monitored online, in accordance with the principles of Training Needs Analysis (TNA).

Quality - Our focus on quality is reflected in us holding specific industry licences in addition to ISO9001 & industry leading CSPs.

Environment & Sustainability - In line with our ISO14001 standard, sustainable procurement and carbon reduction have been introduced across the company.

Corporate Social Responsibility - Investing in the communities we work in & supporting local initiatives is part of the successful service we deliver.

Part of a financially-sound group we have loyal, long serving staff and 85% of our revenue is underpinned by long-term client agreements and frameworks.

Our strategic network of office locations ensures that we can provide our outstanding service to your project anywhere in the UK.
